

## **Drug and Fentanyl Awareness Parent Workshop**

**How to protect our children...**

**Wednesday, May 9th**

**7:00 – 8:30 pm**

**Sacred Heart School Gym**

Parents and families play a key role in their children's drug education and can also have a strong positive influence on their children's attitudes towards alcohol and other drugs. This workshop will provide parents with up to date knowledge about drugs including fentanyl that you can share with your children. This information can help equip children with the knowledge and skills they need to lead a safe and healthy life such as knowing how to seek help, making responsible decisions, predicting and solving problems and speaking assertively. Parents can be safe resources for children to learn the confidence to use a range of refusal and coping strategies such as knowing when to seek help. Join Derek Salisbury for a talk on Wednesday, May 9th at 7:00 pm in the Sacred Heart School gym. Childcare will be provided.
